

## Home-Based Residential Treatment Center

*Partnering with families,  
promoting success*

### Home-Based RTC

The St. Vincent's Villa Residential Treatment Center (RTC) is excited to offer an innovative short-term home-based program.

The home-based RTC program is designed to reduce lengths of stay in higher end care, expand community resource integration, preserve family connectedness and achieve more positive long-term outcomes for children and families.

Boys and girls within this program will spend five days a week in residential care at St. Vincent's Villa and two days a week in their homes. While at home, St. Vincent's Villa will provide comprehensive clinical services for the child and family, while preserving and expanding community supports.

### Services Provided

Some of the services provided by our home-based RTC program include:

- Individualized treatment planning, including individual, family and group therapy
